

ENVIRONMENTAL ENGINEERING ELECTIVES

All courses in red have been approved as electives but need to be added to the next academic year's Student Academic Advisement Report. *Updated on 04/14/22

How to choose an elective:

Our elective list can be found here: <https://chee.engineering.arizona.edu/undergrad-programs/degrees>. The technical elective is extensive which makes it difficult to determine what to take. Think of your electives as your way to have ownership over your degree. You can use it to specialize in a specific area. You can use them to be able to double dip for a minor. Ideally these courses cover subject matter that you are interested in. There are several ways to choose electives.

1. Use your engineering and technical electives to help you specialize in a subject or to fulfill a minor. Use your electives to help you diversify your degree.
 2. Ask your classmates or preceptors what they enjoyed. This is a place to start but remember just because your friend thought it was an easy class doesn't mean you will enjoy it.
 3. Pick things that you are just interested in, not necessarily for a specific reason just to learn more!
-
1. Go to the catalog. <https://catalog.arizona.edu/>
 2. Choose **courses** drop down (top left).
 3. Choose **course descriptions**.
 4. At the top of the page, **choose the first letter** for the subject you are interested in.
 5. You will be able to see all the courses offered in that department.
 6. Choose **a course**. Read the description, see when it is normally offered and what the requisites are.
 7. Go back to the catalog (or your shopping cart in UAccess). Choose **Class Schedule** and follow the prompts to find out if it fits in your schedule and is offered this semester.

The above process is very helpful in picking something that you think would be interesting.

TECHNICAL ELECTIVES

AME (Aerospace and Mechanical Engineering) Courses:

AME 301, AME 302, AME 313, AME 324A, AME 324B, AME 442A, AME 445, AME 446, AME 480

AREC (Agri & Resource Economics) Courses:

AREC 313, AREC 476, AREC 479

ATMO (Atmospheric Sciences) Courses:

ATMO 421, ATMO 436A, ATMO 441A; ATMO 441B, ATMO 451A, ATMO 451B, ATMO 455, ATMO 469A, ATMO 490

BE (Biosystems Engineering) Courses:

BE 284, BE 385, BE 423, BE 426, **BE 444**, BE 452, BE 455, BE 456, BE 458, **BE 459**, BE 475A, BE 479, BE 481A, BE 482, BE 483, BE 485, BE 486, **BE 487**
